

ARJAY DELOS REYES

Aspiring Web Developer | AI-Augmented Full-Stack & AI Automation

arjay09.adr43@gmail.com | 09383546387 | Calapan City, Oriental Mindoro, Philippines 5200

SUMMARY

Graduating BS Information Technology student with hands-on experience building production-grade web applications. Sole developer of Instroom Post Tracker, a multi-tenant B2B SaaS platform built during internship and deployed at posttracker.instroom.io. Also co-developed SagiTech, a CNN-based banana ripeness prediction system. Skilled in modern full-stack development and proficient in leveraging AI tools to accelerate development and solve complex engineering problems.

INTERNSHIP & PROJECT EXPERIENCE

Instroom Post Tracker — Sole Full-Stack Developer

Internship | 2025–2026

- Built a multi-tenant B2B SaaS platform solo for influencer marketing agencies, deployed at posttracker.instroom.io.
- Architected with Next.js 16 (App Router), Supabase/PostgreSQL, Railway background workers, and Vercel deployment.
- Implemented Row Level Security for multi-tenant data isolation and automated post detection, content downloading, and metrics pipelines.
- Integrated Google Drive, SendGrid, LemonSqueezy, and Upstash Redis APIs.

SagiTech: Banana Ripeness & Yield Prediction System

Capstone Project | 2025–2026

- Built a full-stack AI platform with a React 18 + TypeScript frontend, Django REST API, FastAPI ML service, and real-time Socket.IO server — serving a mobile-first responsive UI optimized for Filipino farmers.
- Integrated a custom-trained YOLOv8 model for real-time Saba banana ripeness classification (Unripe, Semi-ripe, Ripe, Overripe) with bounding box detection and batch image processing.
- Developed yield prediction engine using Open-Meteo weather API and farm size calculations, with automated Word/PDF report export and historical analytics dashboard.
- Implemented Firebase Authentication with role-based access (Farmer and Admin), real-time live notifications via Socket.IO, and secure REST API endpoints.

EDUCATION

Bachelor of Science in Information Technology

2022 – Present

Mindoro State University – Calapan City Campus

Certification

Information Technology Specialist – Data Analytics Certification
Issued by Certiport / CertNexus

December 16, 2025

SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React 18, Next.js, Tailwind CSS, Vite
Backend: Node.js, Express, Python, Django REST API, FastAPI, Socket.IO
Databases: MySQL, PostgreSQL, Supabase, Firebase, SQLite
AI/ML: YOLOv8, OpenCV, NumPy, PIL, Google Colab, Roboflow
Tools & Platforms: Git/GitHub, Vercel, Railway, Google Drive API, Upstash Redis
AI Tools: Claude, ChatGPT, GitHub Copilot
AI Automation: Claude MCP, N8N, Workflow Automation, Prompt Engineering
Other: REST APIs, Row Level Security, Multi-tenant Architecture, PWA
